

Kind Kids dental has helped me
have a better smile. I think its
great that they help kids in need,
I can eat more things without
hurt and I feel better
about smiling.

sincerely J.

Age - 8 yrs!

To whom it may concern,

I am writing this letter to let you know how lucky I am as a single parent to have a dental office like KIND. The staff is always wonderful and caring which is so helpful when there are children nervous about going to the dentist. They have always put my daughters mind at ease and walked her through whatever they were doing. I am also so thankful for Sharon Fabrizius the Clinic Coordinator. She is so helpful to me in working around my schedule to get my daughter in. She is like a breath of fresh air the minute you walk into the office. Once again, thank you for the KIND dentist office, it really is so nice to have a program that helps women like myself.
